Governor's Updated Guidance for All Private Career Schools

Governor Inslee updated the existing emergency order on Wednesday clarifying the requirements for fully vaccinated campuses and for those that are not fully vaccinated. The order goes into effect on July 1, 2021 and will remain in effect until rescinded or otherwise amended.

- If you are operating a fully vaccinated campus, you can offer in person instruction without social distancing or masks.

- If your school does not require vaccines, you must continue to comply with modified restrictions in original proclamation.

Schools will not be required to report if your campus is vaccinated or not. In either case, the Workforce Board expects your school to have policies and procedures in place that satisfy the operating requirements and will be able to document them if requested.
