

Health Care Personnel Shortage Task Force

How Can Digital Technology Help?

October 4, 2012

eLearning Technology for All

- SBCTC Strategic Technology Plan
 - Use technology to improve teaching and learning

http://sbctc.edu/general/a_strategictechplan.aspx

- 39,000 CTC students took online or hybrid courses last year

<http://sbctc.edu/college/e-elearningdata.aspx>

What do we have now?

170 online and hybrid degrees and certificates, many in healthcare

- http://www.waol.org/coursecatalog/collegeProgramsList_n.asp

Innovative Delivery Models

- RONE

<http://lowercolumbia.edu/nr/exeres/B835F7BB-25F2-4507-AD41-23D0A5CE4887>

- Physical Therapist Assistant

<http://www.whatcom.ctc.edu/degrees-and-programs/professional-and-tech-degrees/health-care/physical-therapist-assistant1/pta-home/>

How will digital technology change healthcare education?

- Programs in health information management
- Health e-Workforce Consortium
 - Eight colleges received \$11.8 million TAACCCT grant

How Will Digital Technology Change How Healthcare is Delivered?

- More need for care in rural areas
- Use of digital technology for records, sending patient information

Open Resources

- How will open digital technology change healthcare delivery and education?
