

TAP Implementation Committee on Professional Development –DRAFT Charter

Project Name: TAP Implementation Committee on Professional Development

Sponsor: Workforce Training and Education Coordinating Board (Workforce Board)

Project Leader: Marty Brown, SBCTC; Kathy DiJulio, WWA

MISSION STATEMENT

The Professional Development Committee will identify the professional development needs of the workforce system staff, in order to equip them in supporting the goals and strategies of the TAP and WIOA plans, with a focus on using the existing resources within the workforce system.

(This preliminary mission statement will be refined by the committee.)

BACKGROUND

The Workforce Board was named by the Governor as Washington’s State Workforce Development Board under the Workforce Innovation and Opportunity Act of 2014 (WIOA). The Workforce Board’s role is to provide policy recommendations and coordination among the Workforce system’s 17 partners (20 plus programs and funding streams), evaluate system effectiveness, and to advocate for policy improvements on behalf of the system. The Workforce Board is responsible for convening system partners to fully implement the state’s strategic workforce development plan, Talent and Prosperity for All (TAP) within its four strategic priority areas: enhanced business engagement, access and barrier removal, performance accountability, and integrated service delivery. The Board established six implementation committees to bring the voices of the system’s multiple stakeholders and partners together to ensure attainment of TAP’s goals.

During the TAP planning process, the need for a group to coordinate the workforce system’s professional development strategy and plan became apparent. A task force was charged by the TAP Steering Committee to review online trainings currently used in the system and identify desired elements of a professional development plan for managerial and front-line staff. Following the completion and adoption of the TAP plan, the Board recognized the ongoing need for professional development and charged a committee for that specific purpose.

Strategic Link with TAP

Widespread professional development on TAP’s goals and four strategic priority areas—integrated service delivery, accessibility for all, business engagement, and performance accountability—will be essential to seizing WIOA’s transformational mandate.

TAP Goals Tied to Strategic Priority

The Business Engagement chapter of TAP contains one goal explicitly tied to professional development:

- Train at least 30 percent of the workforce system’s staff on the implementation of sector partnerships. **(KEY QUESTIONS: WHO MAKES UP THE “WORKFORCE SYSTEM’S STAFF AND HOW MANY ARE THERE?)**

SCOPE OF COMMITTEE WORK

The TAP Implementation Committee on Professional Development will work with system stakeholders to integrate existing professional development strategies that they currently have and will add to them as needed to support the implementation of TAP’s goals.

The Professional Development Task Force in the TAP planning process recommended the following considerations for any adopted professional development strategies, for both “management” and “front-line” level staff throughout the workforce system:

<p><u>Key Elements for ALL Professional Development</u></p> <ul style="list-style-type: none"> • Training is sustainable within and throughout programs and program budgets • Training is accessible and flexible • Training is face-to-face and on-line/web-based • Training may be a replication of local successes and promising practices • Training is designed to help more people find and keep jobs that lead to economic self-sufficiency, with a focus on disadvantaged populations. • Training is designed to close skill gaps for employers, with a focus on in-demand industry sectors. 	
<p><u>Outcomes for Professional Development Designed for Management-Level Staff</u></p> <ul style="list-style-type: none"> • Clear understanding of the WIOA and TAP requirements and the impact on the core programs; • Understanding of how to build effective partnerships between and among all core programs; • Clear understanding of outcomes and accountability for all core programs. <p>(KEY QUESTIONS: HOW DO WE MEASURE “CLEAR UNDERSTANDING OR UNDERSTANDING”? DO WE HAVE ON LINE “TESTS” OR ASSESSMENTS OR DO WE ADOPT NATIONAL CERTIFICATES?)</p>	<p><u>Outcomes for Professional Development Designed for Front-line, One Stops and Partnering Agency Staff</u></p> <ul style="list-style-type: none"> • Increase the system’s ability to help people get training, find jobs and move up. • Lead to specific skill sets or credentials <p>(KEY QUESTIONS: HOW DO WE MEASURE “CLEAR UNDERSTANDING OR UNDERSTANDING”? DO WE HAVE ON LINE “TESTS” OR ASSESSMENTS OR DO WE ADOPT NATIONAL CERTIFICATES? HOW DO WE IDENTIFY STAFF NEEDING THE TRAINING?)</p>

The elements and outcomes above were proposed by the Steering Committee’s task force on professional development and will inform this committee’s work. The committee will rely on the expertise of partners from across the workforce system to produce a professional development strategy that is useful for the entire system.
