

SUMMARY

Evergreen Jobs Leadership Team Meeting

October 26, 2011

2 p.m. to 3:30 p.m.

Department of Commerce – 1011 Plum Street SE, Bldg. 5, 4th Floor Rm 407

Attendees: Daniel Malarkey, Tiffany Merkel, Kairie Pierce, Aaron Nickell, Joyce Brake, Alan Hardcastle., Terry Tilton, Martin McCallum, Beth Meyer, Darlene Bartlett

OPIC	SUMMARY	ACTION
Welcome and Introductions	Daniel Malarkey, Department of Commerce Deputy Director, welcomed the team and presented the September meeting summary.	
Lightning Round	<p>The Team decided to meet every other month in 2012, with the caveat that if sudden meeting demands come up, the Team reserves the ability to call ad hoc meetings. There could be issues that merit the need to meet during the legislative session, for example.</p> <p>Alan Hardcastle announced that the Skill Standards for Weatherization Crew Leaders handout is up and on WSU's Energy Extension Program website.</p> <p>Terry Tilton attended the Green Expo and emphasized the huge interest that K-12 continues to show in opportunities within the green economy.</p> <p>Daniel Malarkey reported that the Future Energy Conference was a great success and offered a sense of the current activity in the following four tracks: Washington State Energy Summit; Modernizing the Grid; Energy Efficiency; and Bioenergy.</p> <p>Beth Meyer sought guidance from the team on the State Energy Partnership Grant and will present grant updates at the next EJLT meeting.</p>	<p>Report available at: http://www.energy.wsu.edu/Documents/Weatherization%20Crew%20Leader%20Skill%20Standards.pdf</p> <p>Full information: http://www.futureenergyconference.com/splash/</p>
Evergreen Jobs Leadership Team Legislative Report	The Team reviewed a draft of the legislative report and spent time discussing the Team's recommendations for 2012. The recommendations portion will be discussed further at the November meeting and the report will be finalized by December 1.	

**Washington's
Composites
Industry: A
Profile
Presentation
and Discussion**

Daniel Malarkey and Aaron Nickell presented a descriptive overview of Washington's composites industry.
