Economic Development Office

“ By making its impressive technological resources available to the entrepreneurial community, PNNL is helping drive the tech job economy in the Tri-Cities and beyond.”
Lee Cheatham
Executive Director, Washington Technology Center

Is your technology business looking for a door to the Laboratory? The Economic Development Office at PNNL is here to help you start, grow, or revitalize your business. We help you tap into technology experts, facilities, and other resources available at the Laboratory...some at no cost to you.

We've helped more than 400 companies in our region and 100 more nationwide. Our goals: to expand the economy's technology sector and create high-value jobs.
