Thanks to the investments made by the National Fund for Workforce Solutions and SkillUp Washington Funder Collaborative members, we have had a unique opportunity to document, refine and streamline the work of Navigators in the College for Working Adults and Skill Link pilot initiatives. The “Guide and Tools for Navigators” incorporates what we have learned and presents the main principles, tools and practices emerging from this work about the important and influential role that Navigators have on the college and career success of students.

We’d like to thank the many Navigators involved in the College for Working Adults and Skill Link pilot initiatives. Their work and dedication have made a big difference in students’ lives. This guide also reflects the comments and the experiences of the many students who have been involved in these initiatives, as well. Thanks are also due to our other partners, including community colleges, community-based organizations, and workforce intermediaries, whose work helped inspire and influence this guide.

A special thank you to Annie Laurie Armstrong of Business Government Community Connections is also in order for all her hard work creating and writing this guide.

I. Background

SkillUp Washington has funded Navigators through the College for Working Adults and Skill Link projects since 2009. We have reviewed our student assessment and performance data, college faculty, student and employer interviews and other evaluation materials to develop the materials presented in this guide. This extensive review revealed the pivotal role that Navigators play in supporting the college and career access of students engaged in career sector pathways.

We have seen firsthand how Navigators advise and coach students, by incorporating teachable moments into their interactions with students. As coaches (rather than case managers), Navigators provide students with information and self-advocacy support needed to persist in school and transition into the workplace.

As members of teams comprised of students, college faculty, employers and community-based organizations, Navigators are uniquely equipped to advise and recommend ways where the work of system partners can be better coordinated.

“Navigators make a huge difference. Instructors can’t do it all. Together we can work to increase student persistence and success.”

– COLLEGE FOR WORKING ADULTS INSTRUCTOR

The guidelines and tools presented in this guide are meant to strengthen existing navigation systems and equip Navigators to document and use what they learn to inform, coordinate and influence the work of system partners. Please use and adapt these tools as needed, crediting SkillUp Washington. Electronic versions of these tools can be found on our website: http://skillupwa.org.
II. Overview

The Guide and Tools for Navigators is for Navigators who are supporting the college and career success of students.

The guide is intended for Navigators who are working on-site at college campuses or from other non-campus sites or program locations. These materials are designed with the intent that Navigators:

- Work as members of teams, which at minimum include the Navigator, student, college faculty, college staff, employers and community partners;
- Meet regularly with the team members to discuss student progress, persistence, and eventual employment.

The ability to share data between partners is essential, and should be addressed in the design and development of career pathway programs. This guide is particularly useful for cross campus collaborations, where multiple Navigators are focused on coordinating career pathway programs that are focused on the same occupational area or sector, such as manufacturing or business.

The Guide and Tools for Navigators describe the Navigator definition, standards of practice, guiding principles and key functions. It can be used by the organization/institution employing the Navigator to create job descriptions and to help guide Navigators as they implement their work. It is intended as a tool for all partners to help position Navigators in strategic ways that promote cross-system collaboration. This guide includes specific tools, including:

- Navigator Environmental Scan (Attachment 1)
- Early Alert Tool (Attachment 2)
- Career Development Tool (Attachment 3)
- Student Life Domain Tool (Attachment 4)
- Student Tracking Tool (Attachment 5)
- Employer Involvement Tool (Attachment 6)
- Navigator Progress Report (Attachment 7)

III. The Definition of a Navigator

A Navigator is an education and career specialist who assists, coaches and empowers students to develop and pursue post-secondary, career pathway goals and employment.

“The Navigator helped me get a reduced cost laptop and apply for financial aid. They also got me into a study group with other students and connected me to a community based organization that has transitional affordable housing. Basically they help me put the pieces together so I could earn technology certificates and soon get a job that will support me and my three year old.”

– STUDENT
IV. Navigator Guidelines

To be optimally effective, Navigators commit to:

- Supporting the post-secondary persistence and career pathway development needs of students

- Coaching the student to independently and strategically negotiate community, education, and employment resources that support their college and career access and success

- Increasing the involvement of the student and other influential and subject matter experts, including employers, in the students’ education and career decisions

- Minimizing fragmentation and streamlining resources to support student college and career access and success

- Using evidence-based guidelines in the areas of college and career persistence in the daily practice of navigation

- Supporting student transitions to new educational and career settings by increasing students’ knowledge, successful use and access to tuition assistance, financial management resources and tools

- Improving student persistence and career outcomes by utilizing standardized tools and mutually agreed upon “alert” measures to track student progress, and ensure timely interventions to address roadblocks

- Promoting student success by participating in an interdisciplinary team that may include students, family members, employers, college and community based staff

- Expanding the Navigator role to collaborate within the community, making timely referrals to community and governmental resources

- Engaging employers, acting as a liaison among the student, class and employment resources, and garnering feedback necessary to improve student career development outcomes

- Documenting the college and career practices, policies and resources necessary to strengthen college and career access, building a navigation system, and participating in timely continuous improvement efforts

“It is so important to intervene early when a student is having trouble. Ongoing communication is important. Students do better in our program because the Navigators work in partnership with the teachers. We work as a team to ensure students get connected to the type of school or community based supports they need.”

– NAVIGATOR
V. Navigator Guiding Principles

All Navigators should:

- Use a collaborative and asset-based approach
- Facilitate student self-advocacy
- Practice cultural competency
- Use evidence-based practices
- Promote integration of college and employment access and success principles and shared decision-making
- Facilitate student and employer feedback loops to improve student college and career access and success
- Help navigate college and workforce systems, prioritizing support during transitions
- Promote outcome measurement and quality outcomes

“When we work with students we build their self-advocacy and self-efficacy skills, and always encourage them to help other peers. That way, students get a chance to apply and hone their skills.”

– NAVIGATOR

VI. Navigator Functions

Navigators are responsible for:

- Conducting an environmental scan of the college to identify current provider systems supporting students
- Ensuring that scarce Navigator resources are strategically applied and coordinated
- Developing an agreed upon methodology for identifying students who would most benefit from access to Navigator resources
- Assisting with program recruitment goals, as defined by sector team partners
- Initial and ongoing assessments, including completing student early alert, life domain and tracking tools, and progress reports
- Student college and career plan development
- Using an asset-based approach to identify and cultivate student leaders, including roles such as peer tutors and/or class champions
“The Navigator helped me to get involved in a peer learning community group and the college tutoring program. She also helped me apply for tuition assistance and a childcare subsidy.”

– STUDENT

- Sharing of student progress towards barrier mitigation and progress towards career and college goals with sector pathway team members
- Coaching the student to explore options and make alternative plans necessary to achieve cost-effective desired education and career outcomes
- Incorporating student and employer feedback loops to improve college and career success of students, including the retention of newly hired students
- Playing a critical role as a member of the sector team in the following areas:
  - Start-Up Planning
  - Evaluation
  - Curricula Design
  - Recruitment
  - Student Persistence
  - Employer Engagement
  - Marketing
  - Sustainability

(Please refer to Attachment 8, the Sector Pathway Planning and Implementation Checklist, which SkillUp has devised in partnership with other Sector Pathway partners to guide the launching and implementation of sector pathway partnerships).
VII. Navigator Data Collection Tools

The Navigator Environmental Scan is divided into two parts: the College Resources Scan and the Certificate/Degree/Training Program Scan (Attachment 1). The Navigator completes these materials with the input of college faculty and staff prior to the launch of a program. These tools are designed to position SkillUp and other partners to be better informed about where to apply and leverage resources, given the information gleaned through the college and labor market scans. They are intended as tools for all partners to use to more effectively coordinate and deploy resources.

The Student Early Alert Tool (Attachment 2) is completed by the Navigator with the engagement and input of numerous college and/or community-based staff, including those focused on tutoring, financial assistance, academic and career advising. This tool is used to identify students who need specialized supports (academic, employment, advocacy, referrals) as soon as possible so that timely interventions occur. At a minimum, these tools are administered prior to enrollment, mid-course and at the end of the program.

The Career Development Tool (Attachment 3) is completed by the Navigator and used to identify the career development needs of students. The Navigator documents interventions, and/or referrals made to promote the job readiness skills of students. These tools are administered prior to enrollment, mid-course and at the end of the program.

The Student Life Domain Tool (Attachment 4) is completed by the Navigator in partnership with the student and used to assess student vulnerability in different areas such as educational resources, housing, transportation, financial management, work history and marketable skills, childcare, health care access, mental health, life skills management (setting goals & resourcefulness) and support systems that may influence student persistence and career success. Navigators use this information to document and provide direct interventions and referrals. Navigators may also use this information to develop a student demand-driven electronically accessible resource guide. This tool is completed prior to program start-up, and updated on a quarterly basis, or more often, as needed to reflect students’ changing circumstances.

The Student Tracking Tool (Attachment 5) helps Navigators document the academic, support service and employer engagement services students received, in tandem with the major outcomes they achieved. This information is used to reflect on what worked/did not work for students in light of their outcomes, and to develop next step continuous improvements in the program, and/or partnerships. The Navigator completes this form each quarter or semester, depending on the design and length of the certificates or course.

The Employer Involvement Tool (Attachment 6) is used to document the nature and extent of employer engagement in different courses, certificates and career pathways. The Navigator completes this tool, using input from the student, faculty, employers and other community partners. This tool is particularly helpful in cross sector pathway partnerships to ensure that employer engagement strategies are streamlined and efficient for employers, students and college faculty.

The Navigator Progress Report (Attachment 7) is used to identify how the Navigator is supporting student recruitment, course persistence and employer engagement. The information is used to celebrate program strengths and brainstorm next step solutions to address program weaknesses and challenges.
**Tools for Navigators**

**Tool 1**
- **Purpose**: Get to know the College
- **Tool Type**: Environmental Scan
- **When Completed**: During the planning phase, update regularly

**Tool 2**
- **Purpose**: Target Student Intervention
- **Tool Type**: Student Early Alert
- **When Completed**: Prior to Enrollment; end of quarter/semester

**Tool 3**
- **Purpose**: Promote Student Career Pathways
- **Tool Type**: Career Development Tool
- **When Completed**: Prior to Enrollment; end of quarter/semester

**Tool 4**
- **Purpose**: Connect Student to Community Resources
- **Tool Type**: Student Life Domain Tool
- **When Completed**: End of quarter/semester

**Tool 5**
- **Purpose**: Review Student Academic and Employment Outcomes
- **Tool Type**: Student Tracking Tool
- **When Completed**: End of quarter/semester

**Tool 6**
- **Purpose**: Document Employer Engagement
- **Tool Type**: Employer Involvement Tool
- **When Completed**: End of quarter/semester

**Tool 7**
- **Purpose**: Identify Strengths/Weaknesses of Program Recruitment, Persistence and Employer Engagement
- **Tool Type**: Navigator Progress Report
- **When Completed**: End of quarter/semester
SkillUp Washington, as part of its quality management and learning organization approach, is continually striving to identify the best fit between our organization and the external environment. As part of this work, SkillUp documents emerging issues, situations, potential challenges or pitfalls that may affect the quality performance or sustainability of our investments.

The information we gather about education, labor market, college and community partners is analyzed, shared and used to guide planning and implementation. It also serves as a tool for partners to respond in a strategically effective and agile manner to external information.

The attached Environmental Scan tool is completed by the Navigator with the input of college faculty and staff during the planning phase of the program and updated continually.

The Environmental Scan is divided into two parts: Part One: The College Resources Scan and Part Two: The Certificate/Degree/Training Program Scan. The results are shared with program and system partners. This tool is designed to position SkillUp and partners to:

- Be better informed about where to apply and place SkillUp Washington and other partner resources;
- Be more responsive to the college environment and labor market; and
- Understand the environment in which SkillUp is operating in order to more effectively utilize, coordinate and deploy resources for the launch of the program.
**SKILLUP WASHINGTON ENVIRONMENTAL SCAN (CONTINUED)**

Part One: The College Resource Scan provides information about the resources which the student is likely to be able to qualify for and access. Most of these resources will be external to a specific certificate/degree/training program, though a few (such as career advising and internships) may be customized specifically for the program.

ATTACHMENT 1: PART TWO

SKILLUP WASHINGTON ENVIRONMENTAL SCAN (CONTINUED)

Part Two - The Certificate/Degree/Training Scan provides information about specific aspects of the training program and/or other partner resources and programs available to students. Answers will help navigators and other system partners understand how to strategically leverage and align resources to support student transitions, minimize service duplication and promote sustainability planning.

Part Two: Certificate / Degree / Training Program Scan

1. College name

2. Specific certificate/degree/training program name

3. Instructor name, status (FTE, contract employee, etc.) and affiliation

4. Roles, names and affiliations of other key faculty/staff (including recruiters, lab assistants, navigators, evaluators, etc.)

5. Class names and start and end dates of all classes (current and future) associated with the certificate, degree and training program

6. Certificate/degree/training program mode of instruction: (e.g. hybrid, online, compressed, stackable certificates for each course, etc.)

7. Cohort status, if applicable (e.g. open cohort, closed cohort)

8. Targeted demographics of students
9. Special assistance and/or resources available to student population

10. Certificate/degree/training outcomes: (e.g.; enrollment, persistence, training-related placements, system reform outcomes, number of credits; specific names and order of certificates received, etc.)

11. SkillUp Washington and other funding sources for the certificate/degree/training

12. Gaps which certificate/degree/training funding does not address

13. Proposed methods to address gaps described above

14. Expected types of employment resulting from certificate/degree/training

15. Labor market demand data for the above occupations

16. Names and roles of employer/labor partners

17. Business and labor associations/listservs etc. connected to this certificate/degree/training program

18. Types and amounts of supportive services (bus tickets, etc.) available to students; and eligibility requirements

19. Books/materials/special equipment assistance available to students

20. Free/reduced rate laptops provided to students

21. Technology troubleshooting resources available to students
ATTACHMENT 1: PART TWO

22. Time and type of tutoring resources available to students

23. Are there other similar certificate/degree/training programs offered in the community?

24. How does this program dovetail/complement/duplicate and coordinate with these other programs?

25. If applicable, what programs feed into this certificate/degree/training program?

26. If applicable, how does this certificate/degree/training program feed into other next step education or training opportunities?

27. Is childcare available during class hours/times students need to be on campus?

28. Are computer labs accessible to students during class hours/times students will be on campus?

29. Is the library open to students during class hours/times students will be on campus?

30. Is the cafeteria open to students during class hours/times students will be on campus?

31. What do you consider to be the level of institutional, employer/labor, public and political will for this certificate/degree/training program?

32. What do you consider to be the most significant strengths that this program offers?

33. What do you consider to be the most significant challenges that this program may encounter?

34. What do you consider to be the institutional, employer/labor; public and political will to sustain the program after funding ends?
The Early Alert Tool is completed by Navigators, with the input of college and/or community-based staff, including those focused on tutoring, financial assistance, academic and career advising. This tool is used to identify students who need specialized supports (academic, employment, advocacy and referral) as soon as possible. If certain risk factors are indicated an intervention plan is put in place.

This tool is completed by the Navigator prior to enrollment and at the end of the quarter/semester.

<table>
<thead>

</tbody>
</table>

This early alert system will also be used to identify students who are successful and may be interested in serving as peer tutors, leaders, or class spokespersons. Navigators continually use strength-based approaches to: (1) coach and motivate students; (2) promote student self-advocacy skills; and (3) create connections to education and employment resources.
Navigators, in partnership with instructors and/or other workforce development staff, complete the following checklist as part of the career assessment and planning process for each student.

This tool is completed by the Navigator prior to enrollment and at the end of the quarter/semester.

If certain needs are indicated, an intervention plan is put in place.

Introduction

The Life Domain Matrix is a tool to help case managers, Navigators, and Skill Link program staff identify student barriers to program persistence. The results of this assessment help guide student referrals to community and school based resources. Pre/post assessments of these tools provide insight into how students are progressing on different life domains that potentially influence their ability to persist in Skill Link and thrive when they exit the program.

Sites are encouraged to select the life domains they plan to track. If there is an interest in selecting a life domain that is not included in the attached examples or to tailor domains for specific populations, please contact SkillUp Washington, as there may be additional examples of other life domains.

Ten life domains are outlined in the following document, including educational resources, housing, transportation, financial management, work history and marketable skills, childcare, heath care access, mental health, life skills management and support systems.

Why use the Life Domain Matrix?

The Life Domain Matrix:

- Tracks the needs and over time status of students on multiple life domains and/or work;
- Allows students and case managers to set goals to promote student progress on selected life domains;
- Informs referrals to services in different domains;
- Serves as a communication tool for case managers to use with referral partners;
- Informs strategies to address student barriers;
- Offers students an opportunity to celebrate their progress and see how their work in one domain influences their progress in others; and
- Provides "need" data that can be used for case making for flex/support funds and/or developing new strategies and partnerships.
STUDENT LIFE DOMAIN TOOL

How do you use the matrix?

At intake, during the program on a quarterly or semester basis, and before a student exits the program the Life Domain matrix should be administered to reflect the over time status of students in different domains. When using the matrix, staff may want to consider three questions:

1. If a student measures below the "prevention line," what available interventions do we have to provide the student?

2. Do we have gaps in our partnership’s ability to promote student progress in different domains? If yes, how do we plan to address these gaps?

3. Do the life domain barriers make sense? What, if anything, would we recommend changing in the future?

Examples of the Life Domains follow. When a student receives a 1 or 2 rating they are considered in crisis or vulnerable, signaling that they are in immediate need of help. Students who receive higher ratings are identified as safe, stable or thriving.

EDUCATIONAL RESOURCES

<table>
<thead>
<tr>
<th>Dimensions/Benchmarks</th>
<th>Scale Elements (mark on the above chart)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thriving (5)</td>
<td>Always able to independently pursue tuition assistance or other college resource options</td>
</tr>
<tr>
<td>Stable (4)</td>
<td>Pursues tuition assistance/other college resource options most of the time</td>
</tr>
<tr>
<td>Safe (3)</td>
<td>Knows where to turn for tuition assistance or other college resources; needs help to pursue resources</td>
</tr>
<tr>
<td>Vulnerable (2)</td>
<td>Has limited knowledge of tuition assistance or other college resources; can identify areas of assistance but needs help to follow through</td>
</tr>
<tr>
<td>In-Crisis (1)</td>
<td>Has no knowledge of tuition assistance or other college resources</td>
</tr>
</tbody>
</table>
### HOUSING

<table>
<thead>
<tr>
<th>Dimensions/Benchmarks</th>
<th>Scale Elements (mark on the above chart)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thriving (5)</td>
<td>Living in unsubsidized housing</td>
</tr>
<tr>
<td>Stable (4)</td>
<td>Living in subsidized housing for longer than the next twelve months</td>
</tr>
<tr>
<td>Safe (3)</td>
<td>Living in subsidized housing sustainable for at least the next twelve months</td>
</tr>
</tbody>
</table>

**PREVENTION LINE**

- Vulnerable (2): Living in substandard housing; transitional/time limited housing; subsidized housing at risk of losing due to noncompliance with program rules
- In-Crisis (1): Living in emergency shelter, the street, or other place not meant for human habitation; served with eviction notice; at risk of losing housing within two weeks and have no other place to go

### TRANSPORTATION

<table>
<thead>
<tr>

STUDENT TRACKING TOOL

The Student Tracking Tool provides an easy way for Navigators to review the academic, support service and employer engagement services students received, in tandem with the major outcomes they achieved. This information is used to reflect on what worked/what did not work for students in light of their outcomes, and to develop next-step continuous improvements in the program and/or partnerships.

The Navigator completes this form each quarter/semester, depending on the design and length of the certificates or course.

1. Student name

2. Training program name

3. Date student enrolled in training program

4. Date student enrolled in navigation/was assigned to a Navigator

5. Date student completed integrated career/education/ work plan

6. Type of academic course persistence support student received

7. Type of personal/life skills support student received
<p>| | |</p>

ATTACHMENT 6

EMPLOYER INVOLVEMENT TOOL

The Student Employer Involvement Tool is completed at the end of the semester/ quarter and used to document the nature and extent of employer engagement in different courses, certificates and career pathways.

The Navigator completes this tool, using input from the student, faculty, employers and other community partners at the end of each quarter/semester.

This tool helps streamline employer engagement activities, and is particularly useful in programs where multiple partners are focused on the same career pathway.

1. Name of course

2. Name of college

3. Name of Navigator

4. Employer name

5. Job title

6. Company

7. Contact information
8. Employer engaged as class speaker/presenter

9. Employer engaged as career mentor

10. Employer engaged in mock interviews

11. Employer offered tour of worksite

12. Employer donated supplies to class

13. Employer engaged as internship/training site

14. Employer provided job leads

15. Employer hired graduate(s)

16. Employer referred incumbent worker to class

17. Employer paid tuition (full or partial) for incumbent worker

18. Employer gave worker paid time off to take class

Program partners may want to jointly develop a glossary to accompany this list to ensure that tracking processes are uniformly documented and understood.
Navigators complete progress reports at the end of the quarter/semester. The information on this report is used to identify program strengths and weaknesses in three areas: student recruitment, student course assistance and employer engagement. The results guide next step improvements in programs and partnerships.

College Name

Date

Navigator Name

**Student Recruitment**

1A. Please briefly describe your recruitment efforts to date, including any partner agencies or other classes you worked with to enroll students in navigation services.

1B. What, if applicable, were your one or two most successful recruitment strategies?

1C. What, if applicable, were your one or two main challenges to successful recruitment?
**Student Course Persistence**

2A. Please briefly describe the types of course persistence assistance you provided students.

2B. What, if applicable, were your one or two most successful course persistence strategies?

2C. What, if applicable, were the one or two main course persistence challenges students’ encountered?

2D. Are students choosing to pursue advanced training? Why or why not?

**Employer Engagement**

3A. Please briefly describe the employer engagement strategies you used this quarter.

3B. What, if applicable, were your one or two most successful employer engagement strategies?

3C. What, if applicable, were the one or two main employer engagement challenges you encountered?

3D. Are students getting hired to training related jobs? Why or why not?

Employer Engagement (continued)

3E. Have you received any feedback from employers or students about how students are doing after entering employment? Please explain.

_________________________________________________________________________________________________
A review of SkillUp's previous sector pathway training experiences to date suggests that the following elements need to be in place to support successful cross-campus and cross-system implementation.

### Start-up Planning

- MOUs/Partnership agreements
- Fiscal agreements
- Data agreements
- Schedule ongoing cross-college/partner meetings
- Sector team faculty and staff (instructors, curricula development, workforce development, financial aid, institutional researchers, financial aid, students services, etc.), workforce investment act partners, community based organizations and Navigators to inform the design of project goals, objectives and outcomes
- System partner buy-in to project goals, objectives and outcomes
- Staff training and orientation to model goals, objectives and outcomes
- Realistic Work Plan and Project Timeline
- Coordination of campus course offerings to reach a broader audience
- Analysis of the target population composition on cohort management, service delivery and partnerships
- Completion of Navigators Environmental Scan

### Evaluation

- Theory of Change outlined with clear assumptions, activities and outcomes
- Evaluation training for all staff and partners
- Front-end evaluation plan in place, followed by regular time to review evaluation findings and make mid-course changes as needed to improve services
- Stakeholder (faculty, student, employer, staff) surveys, interview instruments developed, piloted and refined as needed
Evaluation (continued)

- Confidentiality tools, consent forms and protocols in place, and included in evaluation training
- Evaluation findings disseminated to partners, current and prospective partners
- Establishment of a closed network or other vehicle for sharing effective and evidence-based research among college partners to promote continuous learning and program/system improvement
- Ongoing journaling of key events, milestones and reasons for changes and next steps

Curricula Design

- Systematic utilization of student, faculty, staff, employer feedback, course persistence and evaluation data for course planning and continuous improvement
- Incorporation of previous graduate feedback to improve course design
- Utilization of labor market data to inform curriculum design
- Contextualized Math and English
- Inclusion of opportunities for contextualized workplace experiences (e.g. job shadows, internships, capstone projects, etc.)
- Inclusion of opportunities for students to develop career plans, portfolios containing samples of their work product in course syllabus
- Prior Learning Assessment
- Opportunities for ongoing faculty development

Recruitment

- Front end and ongoing recruitment to ensure full course enrollment
- Timely provision of financial assistance and pre-enrollment coaching to prep students for the course
- Recruitment goals that anticipate and plan for attrition at every stage
- Opportunities for potential candidates to see a class in person or on video
- “Student-friendly” handouts and informational materials that present a crosswalk between labor market demands, course competencies, career access and advancement
- Identification of “anchor recruiters” including previous graduates, employers and CBO partners
- Use of social media and Twitter to recruit students
- Outreach to previous dropouts to see if they are ready to re-enroll
- Automatic pre-registration for students enrolled in multiple courses to promote continued engagement
- Continued coordination of campus offerings to ensure timely and ongoing recruitment efforts
**Student Persistence**

- Holistic “early alert” system tools and strategies to identify student academic and life circumstance persistence barriers
- Ongoing communication among Navigator, instructor and student
- Opportunities for ongoing career development and exploration activities
- Guidelines for students to form and manage peer learning groups
- Qualified and timely tutoring assistance
- Access to working and fully operational computers, internet and technology troubleshooting
- Resources to cover course books and materials
- Attainment Fund and/or referrals to closely aligned community partners who have emergency resources to support student persistence barriers (e.g. transportation, energy assistance, housing assistance)
- Connection to work study and/or income earning opportunities necessary to support the student while in school
- Tuition/Financial Aid Assistance
- Incentives (e.g. recognition, leadership opportunities) to promote and reward student success
- End of course transition plans that articulate next step career/education goals of students

**Employer Engagement**

- Involvement of employers in identifying their labor market, hiring, course content, recruitment, marketing and career mentoring needs
- Identification of employer opportunities to offer advancement training and/or paid or unpaid work release for incumbent workers to take courses
- Identification of employer research and capstone project needs
- Employer Engagement Tracking System
- Engagement of employers in developing career pathway lattices and ladders that show the types of jobs graduates may be positioned to pursue and the competencies needed to advance from these careers
- Aligned efforts across sector partners to reduce duplication and expand the employer network
- Identification of on ramp to work opportunities that may include On-Job-Training, pre-apprenticeship, temporary employment, or other approaches
- Connect course students and graduates to WIA/WorkSource, Industry Associations, and/or apprenticeship opportunities as appropriate for career exposure and employment
- Single point of contact at each college to build and maintain meaningful relationships with employers, coordinated across District
- On-boarding process in place for employers to sign up for internships, mock interviews, and other engagement opportunities
Marketing

☐ Marketing plan in place and updated regularly
☐ Consistent use of cross college marketing and messaging about the class
☐ Ongoing incorporation of evaluation findings in marketing updates to funders and policymakers
☐ Research, publication and conference presentation strategy in place
☐ Use of social media and Twitter to market courses
☐ Ongoing collection of photographs/course materials that depict the course approach, content, career path, etc. and can be used in presentations and reports

Sustainability

☐ Sustainability plan in place and updated regularly
☐ Dissemination plan in place and updated regularly
☐ Dissemination of project reports and findings to past, current and prospective funders
☐ Continued scan of the funding landscape to determine ongoing opportunities to align, coordinate, leverage or apply for funding
☐ Continued scan of the employment success of graduates in tandem with labor market scans to look at program performance measures in tandem with labor market data.
☐ Develop cost analysis of project implementation
☐ Develop a return on investment case for the project to use in case making
☐ Identify policy or funding levers that may be manipulated to sustain or draw new funding
