What we believe

Every student in every school deserves equal access to the information and skills that will prepare them for the opportunities of the future.

And that this can be accomplished by

- ✦ Equalizing opportunities
- ✦ Strengthening student engagement
 - ✦ Raising student achievement
 - ✦ Involving families
 - ✦ Building community

These goals have historical context

Such goals have informed the development of comprehensive guidance and counseling programs in our WA schools

Comprehensive guidance and planning programs for students

Enacted in 2006

Legislative Intent:

1. There are specific skills and a body of knowledge that each student needs to chart a course through middle school, high school, and post-high school options.
2. Each student needs active involvement from parents and at least one supportive adult in the school who knows and cares about the student's progress and future.
3. Students, parents, and teachers need the benefit of immediate feedback and accurate diagnosis of students' academic strengths and weaknesses to inform the students' short-term and long-term plans.
4. Empower and motivate all students and parents to take a greater role in charting the students' own educational experiences, the legislature intends to strengthen schools' guidance and planning programs.

2006 - 2013

which has evolved into

2013 - present
