

One week left to update Career Bridge information before Student Data Portal opens on July 1st

Hello:

The Workforce Board's Student Data Portal is just about to open! In the coming days, we will be pulling information from www.CareerBridge.wa.gov into the portal. And that means your school's programs on Career Bridge must be COMPLETELY up to date or they won't match information in the portal...and you will get error messages when you load student data. Ugh! L

Already, updated your programs? Thank you!

Student data portal opens on July 1...but Career Bridge deadline is Friday, June 7!

We are transferring all data in the next few days. So don't wait.

Make sure each of your programs has the correct:

- Program title
- Tuition/other costs
- Length of training
- Contact info and more

Sign in at: http://www.careerbridge.wa.gov/Login_TPP.aspx?cmd=2

We've attached the current Student Data Portal spreadsheet, feel free to get a head start entering your students!

Any questions?

We stand ready to help. Give us a call or--better yet--send us an email at careerbridge@wtb.wa.gov
