GUIDANCE ON EXTENDED STAY HOME, STAY HEALTHY ORDER

Governor Inslee announced a month-long extension of his "Stay Home, Stay Healthy" emergency order Thursday evening. The order, which banned all gatherings and temporarily shuttered non-essential businesses, will continue through May 4. All private career schools must continue their temporary closed status and cease any ongoing in-person instruction, or laboratory and field classes. This includes all educational and training activities related to in-person and on-site public interaction.

We encourage schools that can to continue with online/distance education instruction as approved by the Workforce Board. If you have any courses or programs that may be suitable to be transitioned to online/distance education delivery, please complete the attached [Temporary Distance Education/Online Waiver](#). The waiver and more information regarding this closure can be found at: <https://www.wtb.wa.gov/private-career-schools/closure/>
